feline: _____; canine: _____; avian: _____; other: _____

7. Comments regarding item A: _____

B. Primary Enclosures

1. How many indoor cages/kennels are in use today? _____; none

a. Cage Dimensions (L x W x H = cu ft)

1. _____ x _____ x _____ = _____

2. _____ x _____ x _____ = _____

3. _____ x _____ x _____ = _____

4. _____ x _____ x _____ = _____

b. Is there more than one four-pound animal per 30 cu ft of cage? yes no

If yes, are there additional resting shelves in the cage? yes no

c. In general, is there adequate space for each cage-bound animal? yes no

d. Are the cages structurally sound and in good repair without hazardous corners/edges, etc? yes no

e. Are cage bottoms and sides clean? yes no

2. How many outdoor cages/kennels are in use today? _____; none

a. Cage Dimensions (L x W x H = cu ft)

1. _____ x _____ x _____ = _____

2. _____ x _____ x _____ = _____

3. _____ x _____ x _____ = _____

4. _____ x _____ x _____ = _____

b. Is there sufficient shade to protect animals from the sun? yes no

c. Is there sufficient shelter to allow animals to remain dry at all times? yes no

d. In general, is there adequate space for each cage-bound animal? yes no

e. Are the cages structurally sound and in good repair without hazardous corners/edges, etc? yes no

f. Are cage bottoms and sides clean? yes no

3. Comments regarding item B: _____

C. Ventilation

1. Are there sources of fresh air by doors, windows, or vents? yes no
2. Is the site heated/cooled to keep an ambient temperature that will prevent both hyper/hypothermia? yes no
3. Is there (in general) an absence of odor at this site? yes no
4. Is there an absence of moisture condensation? yes no
5. Comments regarding item C: _____

D. Light

1. Is there an ample supply of artificial or natural light? yes no
2. Is the lighting uniformly distributed and not excessive? yes no
3. Comments regarding item D: _____

E. Cleanliness

1. Is the overall appearance clean? yes no
2. Is there (in general) an absence of odor where the litterbox/es are kept? yes no
3. Are there a sufficient number of easily-accessible litterbox/es which are less than 30% saturated with waste? yes no
4. Are the sides of the litterbox/es clean inside and out? yes no
5. How are the results of elimination accidents dealt with? _____

6. Is there an absence of accumulated dust, dirt, fecal matter, and dried food on floors and walls? yes no
